### Vehicle Numbers

Rally NSW supplies professionally printed vehicle numbers (see sample below), in an 'FIA' style. These are FREE to NSWRC, CRS/DRS/ORS/HRS, and RSS organisers. They are available at a small cost to other event organisers. To order, simply give us the details of what you need below.

Number of competition cars: ..... (include your reserves)  
 Number of setup cars: .....  
 Please list the numbers of your setup and sweep cars: 000, 00, 0, Sw,  
 .....  
 Total number: ..... (now write this into in the table below)

### Door plates

Door plates are the stickers on the top of the door which identify your event (see sample below). These are paid for by the organisers. The size we supply is 150H x 450W. You will need to send us a high-res image suitable for printing in that size. We do not create artwork. You may choose to have door plates for every car including all the setup cars, or just for competition cars; it's up to you. Just write how many you need in the table below.

Please email completed form to [sales@bca.co](mailto:sales@bca.co) and cc to [info@rallynsw.com.au](mailto:info@rallynsw.com.au)

Note – when printing this form, print page 1 only, as the next 2 pages are full of large blocks of colour.

The next page contains important information which needs to be cut and pasted into your supp regs. Samples of the stickers are on the last page.

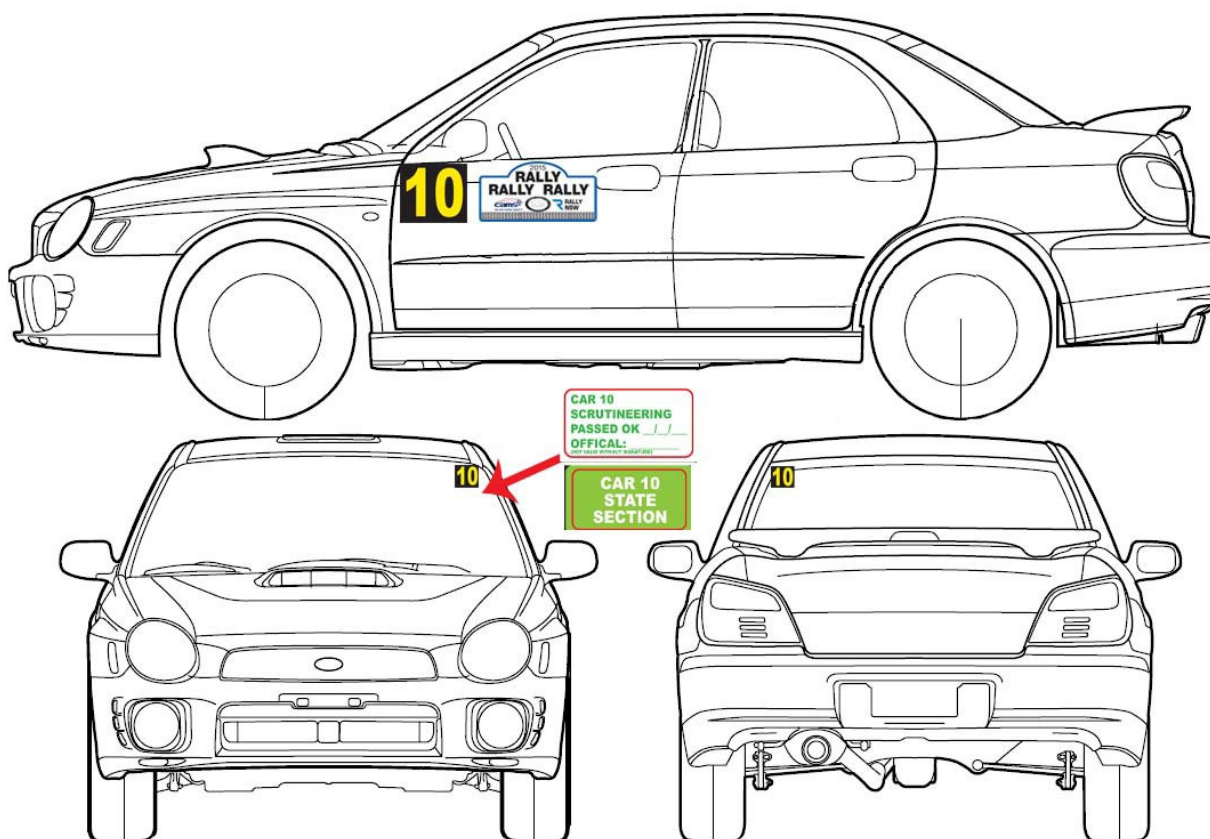

Organisers – This page is intended for cutting and pasting into your supp regs, which will help your competitors to know how to apply the numbers. If you are unable to cut and paste from this PDF, there is a word document version on the website in under the “Supp Regs” heading on the page info/organisers/templates.

## Vehicle signage stickers

Important – the vehicle numbers supplied are made to go on and off cars without damaging paintwork. As such they are deliberately made with removable adhesive. When applying your vehicle numbers please ensure that your car is clean and dry. Press the stickers down firmly, and rub to the edges and the corners. Avoid lifting and re-applying.

The vehicle signage in use is a modified FIA style. Please refer to the sample vehicle diagram below:

- Larger Vehicle Numbers - top front corner of the door.
- Door Plates (name of the rally) – top of door behind the car number.
- Smaller numbers – Top passenger side corner of the windscreen , and also on the matching place on the rear windscreen.
- Scrutineering sticker – this will be signed at Document verification upon receipt of a completed scrutineers report. Place it on the front Windscreen underneath the number.
- State/Multiclub section labels (if used) – front windscreen under vehicle number.
- Please state other areas being used in your event, otherwise delete this line.

Example of a Vehicle Number set:

Vehicle numbers supplied look like this (see below). They are cut on a label press, so each sticker is easily removed from the backing and applied to the car.

Example of a door plate set:

This particular example has some white space each side because the size of the file was 150 X 300. If you don't want white space, just design your artwork to fill the 150 X 450 space.
